基本營養素：超級抗氧化劑 Essentials™: Mega Antioxidant

每瓶84片
84 Tablets / Bottle

科學研究證實游離基能破壞細胞功能。游離基產生自新陳代謝過程、脂肪氧化、環境污染及其他因素。人體本身具備一個抗氧化系統去對抗游離基。但緊張的生活和環境污染，導致大量游離基產生，令本身對抗游離基的系統亦應付不來。USANA 特別研製一個均衡和高效的維他命和抗氧化劑組合配方，幫助身體對抗游離基，從而令身體達至理想健康。

New findings are published every month about the damaging effects of free radicals. Free radicals are created by metabolic processes, fat oxidation, pollution, and many other sources. The body produces antioxidants to counteract free-radical damage, but our modern lifestyles and environmental pollutants can create more free radicals than the body can normally handle. USANA has concentrated on formulating an extremely potent combination of vitamins and antioxidants to help your body in its struggle for optimal health.
