產品編號： 125 Item #: 125

康蒜寶是一種容易吸收的優質天然營養產品。康蒜寶能幫助維持體內正常血壓、膽固醇及甘油三酯的水平；研究顯示，蒜頭有助體內天然免疫細胞的形成，及加強免疫系統功能。

USANA's Garlic EC is a high-quality, highly bioavailable form of one of the most beneficial foods and natural supplements known. Along with proper diet and regular exercise, garlic has been shown to help retain cardiovascular health. Garlic constituents inhibit the formation of free radicals by supporting the body's free-radical scavenger mechanism and by protecting against oxidation by free radicals. Garlic has also been shown to help naturally support a healthy immune system.
