前花色素能減少游離基對身體的侵害，兼且可以保護及更生維他命C和E的作用(維他命C和E，兩者都是強力游離基清除劑)。配合 USANA 註冊專利配方礦物維生素C，更能提昇葡萄籽精華的強效全面抗氧化功能，促進身體健康。

Not only do proanthocyanidins neutralize free radicals efficiently, but they also conserve and regenerate vitamin C and E (both are free radical scavengers). Coupled with USANA exclusively formulated Poly C™, Proflavanol™ provides extra protection against free-radical damage.
